

# High Commode Price in Bangladesh: A Water Closets Buying Guide

Selecting a new commode is a vital decision for your home, impacting daily comfort, hygiene, and even your bathroom's aesthetic. In Bangladesh, high commodes (or Western-style toilets) are increasingly popular for their ergonomic benefits.

However, the market is filled with options, making it hard to choose. This guide simplifies the process by focusing on two exceptional brands: the globally acclaimed COTTO and the customer-focused CHARU.

This specialist guide will walk you through everything you need to know about high commode prices in Bangladesh, specifically for COTTO and CHARU models. We'll explore their premium features, discuss why they stand out, and provide a clear comparison against other market competitors. By the end, you'll understand the true value these brands offer and be ready to make an informed investment in quality and comfort.

## Why Choose COTTO & CHARU? A Focus on Excellence

When investing in sanitary ware, brand reputation is a powerful indicator of quality, durability, and performance. COTTO and CHARU, both produced by Charu Ceramic Industries Limited, represent two tiers of excellence designed to meet different customer needs while upholding a singular commitment to quality.

### COTTO: The Global Standard for Finest Sanitary Ware

COTTO is a world-renowned brand from Thailand, celebrated for its relentless pursuit of innovation, sophisticated design, and unparalleled quality. It has established itself as a leader in the sanitary ware industry by combining state-of-the-art technology with elegant aesthetics.

When you choose COTTO, you are investing in decades of research and development. The brand is known for pioneering features like its proprietary Hygienic Glaze, which creates an ultra-smooth surface that prevents bacteria and waste from adhering. Their advanced flushing systems, such as the Siphon Jet and Tornado Siphon Jet, offer powerful, quiet, and water-efficient performance. This global recognition is built on a foundation of superior materials and rigorous quality control, making COTTO a symbol of luxury and long-lasting reliability.

### CHARU: Quality and Customer Satisfaction at its Core

CHARU is a brand that understands the needs of the Bangladeshi market perfectly. While offering exceptional quality, CHARU focuses on delivering outstanding value and ensuring complete customer satisfaction. The brand's philosophy is simple: create durable, reliable, and beautifully designed commodes that are accessible to a wider audience.

Every CHARU commode is a testament to the company's commitment to quality manufacturing. The brand ensures that even its more affordable models are built to last, using high-quality ceramic and dependable flushing mechanisms. By prioritizing customer needs and feedback, CHARU has built a reputation for trust and dependability, making it a go-to choice for homeowners who seek a perfect balance of price, performance, and peace of mind.

## COTTO One-Piece Toilet Collection: A Closer Look

COTTO's one-piece commodes are the pinnacle of modern bathroom design, offering a seamless and easy-to-clean solution. Here are three standout models available in Bangladesh.

## Premium Price Range for COTTO One-Piece Toilets: BDT 27,000 - BDT 40,000

### 1. COTTO Comfort Plus

The Comfort Plus is designed for the ultimate user experience. It combines cutting-edge technology with thoughtful ergonomics.

- **Rimless Design:** This innovative feature eliminates the traditional rim, where germs and dirt accumulate, making the bowl exceptionally hygienic and easy to clean.
- **Tornado Siphon Jet Flush:** A powerful swirling action cleans the entire bowl with every flush, using water efficiently while ensuring maximum performance.
- **Hygienic Glaze:** COTTO's special glaze creates an incredibly smooth surface, preventing stains and bacteria buildup.
- **Premium Slim Seat & Cover:** The sleek, soft-close seat adds a touch of modern elegance and prevents loud slamming.

### 2. COTTO Grand Riviera

The Grand Riviera is a masterpiece of classic design and powerful functionality. It is perfect for those who appreciate timeless elegance.

- **Siphon Jet Flush:** This powerful flushing system uses a jet of water to create a strong siphon action, clearing waste quickly and effectively.
- **Hygienic Glaze:** Like all premium COTTO models, it features the ultra-smooth glaze that ensures long-term cleanliness and easy maintenance.
- **One-Piece Construction:** Its seamless design provides a sophisticated look while eliminating the hard-to-clean gap between the tank and bowl.

### 3. COTTO Grand Tetragon

For those who favor bold, contemporary lines, the Grand Tetragon is an ideal choice. Its geometric design makes a strong style statement.

- **Siphonic Wash Down:** This efficient system combines the force of water with a siphonic pull to ensure a clean and thorough flush every time.
- **Hygienic Glaze:** The non-porous, stain-resistant surface keeps the commode looking new for years.
- **Modern Aesthetic:** Its unique square-like shape and one-piece form factor are perfect for modern, minimalist bathrooms.

## CHARU Commodes: Reliable Quality for Every Home

CHARU offers a range of commodes that deliver reliable performance and classic designs, all while ensuring affordability and quality.

- **CHARU CM950:** A popular model known for its robust build and efficient flushing system, making it a dependable choice for any family bathroom.
- **CHARU CM800:** This brand new model offers a siphon jet flushing system with clean and classic aesthetic, fitting seamlessly into various bathroom styles while providing consistent performance.
- **CHARU CM750:** An excellent value proposition as well as best selling toilet ever in one piece toilet category, the CM750 provides the durability and quality CHARU is known for at an accessible price point.

# COTTO/CHARU vs. Competitors: The Clear Difference

When comparing COTTO and CHARU with other brands on the market, the differences in quality and long-term value become apparent. Here's a breakdown of what sets them apart.

| Feature                | COTTO / CHARU   | Other Competitor Brands  |
|------------------------|---|--|
| <b>Glazing</b>         | Features an advanced, ultra-smooth <b>Hygienic Glaze</b> that is non-porous, stain-resistant, and actively prevents bacteria buildup.                                 | Often use a standard glaze that can be porous, leading to stains, discoloration, and germ growth over time.                          |
| <b>Quality Testing</b> | Undergoes rigorous, multi-point international standard testing for durability, flush performance, and load-bearing capacity.  | Testing standards can be inconsistent. Some brands may only perform basic checks, leading to potential issues with cracks or leaks.  |
| <b>Performance</b>     | Utilizes advanced flushing systems like <b>Tornado Siphon Jet</b> and <b>Siphon Jet</b> for a powerful, quiet, and water-efficient flush that cleans the entire bowl. | Often rely on basic wash-down systems that may require a second flush, wasting water and providing less effective cleaning.          |
| <b>Durability</b>      | Made from high-grade ceramic mixtures and engineered for longevity. Backed by strong warranties that reflect confidence in the product's long-lasting nature.         | May use lower-grade materials that are more susceptible to chipping, cracking, and mechanical failure. Warranties are often shorter. |

## Conclusion: An Investment in Quality and Comfort

Choosing a high commode is more than just a purchase; it's an investment in your home's daily comfort and hygiene. While the high commode price in Bangladesh can vary widely, brands like COTTO and CHARU offer clear value that goes beyond the price tag.

COTTO provides world-class innovation, luxury, and performance for those who want the absolute best. CHARU delivers exceptional quality, durability, and customer satisfaction at a price point that makes excellence accessible. By choosing either brand, you are opting for superior materials, advanced technology, and the peace of mind that comes with a product built to last.

## Frequently Asked Questions (FAQ)

Here are answers to some common questions about choosing a high commode.

### Q1: Why should I choose a one-piece commode like the ones from COTTO?

One-piece commodes offer a sleek, modern look and are significantly easier to clean because they don't have a gap between the tank and bowl where dirt can accumulate. They represent a more premium and hygienic choice for a modern bathroom.

## Q2: What is the benefit of COTTO's Hygienic Glaze?

COTTO's Hygienic Glaze creates an ultra-smooth surface that is highly resistant to stains and waste adhesion. This means the commode stays cleaner for longer, is easier to wash, and prevents the buildup of bacteria, ensuring a more hygienic bathroom environment.

## Q3: What makes the Tornado Siphon Jet flush special?

The Tornado Siphon Jet system uses powerful jets of water to create a swirling, cyclone-like effect. This motion cleans the entire surface of the bowl thoroughly and quietly with a single flush, making it more effective and water-efficient than traditional flushing systems.

## Q4: Is a CHARU commode a good long-term investment?

Absolutely. CHARU focuses on using high-quality materials and reliable components to ensure durability. The brand's commitment to quality and customer satisfaction means you are getting a product designed to provide dependable performance for many years.

## Q5: How do I know which commode will fit my bathroom?

Before buying, you must measure the "rough-in" distance—the space from the finished wall to the center of the floor drain. Most commodes in Bangladesh require a standard 10 or 12-inch rough-in. Confirming this measurement is crucial for a successful installation.

## Q6: Do I need a professional plumber to install my new commode?

It is highly recommended to hire a professional plumber for installation. This is especially true for one-piece models. A professional will ensure the commode is installed correctly, preventing leaks and guaranteeing optimal performance and longevity.

A screenshot of a Google search interface. The search bar contains the text "High Commode price in bangladesh". To the right of the search bar, a red box highlights the search volume "2.9k" and the currency conversion "₹2.45". A red arrow points from the top of the page to this box. Below the search bar, there are tabs for "All Mode", "All", "Images", "Short videos", "Videos", "Forums", "News", "More", and "Tools".
